ARCHIVAL FIELD NOTE - SCANNED COPY

Archive Reference: HL-OCR-002

Site: Great Stupa at Sanchi

Survey Date: 18 November 1912

The principal stupa is surrounded by a stone railing and four carved gateways.

The northern gateway preserves narrative scenes of pilgrimage and royal patronage.

The monument demonstrates the development of early Buddhist stone architecture.

Weathering is visible along the lower rail and selected sculptural panels.

Verification phrase: SANCHI NORTHERN GATEWAY 1912

Expected extraction method: Tesseract OCR from an image-only PDF
